4. Approve Minutes:
5. Approve Checks and Warrants:
6. Board to Consider Authorizing the G.M. to Donate the District's Portable Light Tower for Use at the 2024 Plumas Lake Community Block Party Event: The block party, a South Yuba County Sunrise Rotary Club service project, is scheduled for Saturday, August 17, 2024 at Eufay Park in Plumas Lake. Using a District vehicle, staff will deliver, set up, then return the equipment at the end of the evening.

Discussion Items:

---

7. Board to Consider Approving an Amended RD784 Drug-Free Awareness Program: Staff worked with the Eyres Law Group (affiliated with GSRMA) on program updates. Changes include an updated Work Place Drug and Alcohol Policy, which is reflective of new cannabis laws, and the addition of a Reasonable Suspicion Policy. (See Handout)
8. Board to Consider Adopting Resolution 2024-04-01 for Accepting Two 40' Wide Easement Areas Over Lot B Remainder Area of Wheeler Ranch Phase II from JAS Land Fund 2, LLC and Authorize the GM to Sign the Final Map: In-between Wheeler Ranch Phases I and II, there is a 4.60 acre strip of land ("Lot B") on the final map that will be dedicated to the County of Yuba. In order to maintain the District's drainage function across this strip of land, the District requires two 40' wide easements (approximately 0.11 acres total). The two easements are necessary to provide District access on, over, across, and underneath Lot B. (See Handout)

9. Board to Consider Adopting Resolution 2024-04-02 For Accepting a 0.88 Acre Drainage Easement Located in the Arboga Colony From J&D Hasteley Revocable Trust: The area includes a 0.88-acre strip of land located along the west side of Arboga Rd. in-between Plumas Arboga Rd. and Broadway St., which is over part of the District's existing drainage lateral system. The county conditions of approval for a commercial development project at this site require the dedication of a drainage easement to the District. The easement is necessary to allow District access for O & M. Trustee Jared Hasteley will have to recuse himself from the meeting before consideration of this item. (See Handout)
  
10. Board to Consider Approving Updated Coat's Trucking, Inc. Material Rates: A 3-year trucking agreement between RD784 and Coat's Trucking, Inc. was executed on March 17, 2023 which includes hourly trucking rates and material costs. Contract provision #5 in the current agreement allows the District to consider annual hourly rate and material cost changes if requested by the contractor. Coats Trucking is requesting a contract amendment to allow material rate increases only, while leaving hourly trucking rates the same. (See Handout)
  
11. Board to Receive Information on Letters of Support Provided to YWA: Staff received a request to provide letters in support of Yuba Water Agency's efforts to secure Congressionally Directed Spending for the updates for the New Bullards Bar and Oroville Dams Water Control Manuals updates. To meet YWA timeline needs, and with the consent of Board Chair Atwal, staff provided separate letters of support for each member of the Yuba County congressional delegation. (See Handout)
  
12. Board to Receive an Update on Insurance Applications for Liability, Workman's Comp, Property, and Cyber Liability: Staff will provide an update on application progress. All estimates are expected by sometime in April and a decision on a provider for the start of the next FY will need to be made by the May Board meeting.
  
13. Board to Receive the Monthly Budget Snapshot:

# Reclamation District No. 784

## Reasonable Suspicion Policy

PURPOSE OF POLICY	To clarify what reasonable suspicion is and who is covered, the process for testing and when to return to work.
POLICY SUMMARY	This policy outlines when to invoke reasonable suspicion and who can invoke it. It also outlines the process for drug testing and return to duty.
APPROVAL	

Reasonable suspicion is based on a legal standard of proof that allows an employer to test an employee for the presence of drugs or alcohol. It is based on specific facts and rational influences.

RD 784 will conduct drug testing for reasonable suspicion purposes for all employees.

Employees identified in safety sensitive roles will also be entered into the random drug testing program and follow additional testing procedures. (Safety sensitive roles are those that hold class B licenses and perform class B driving for the District.)

Examples of behavior that may result in a finding of reasonable suspicion include, but are not limited to the following:

- Odor of alcohol on their breath, clothing, or body;
- Impaired gait: staggering, stumbling, sustained unsteadiness when standing/walking or unusual body movements
- Slurred or unusual speech
- Bloodshot/red/squinting, dilated or constricted pupils or unusual eye appearance
- Unusual/inappropriate verbal or physical behavior
- Unusual/delayed communications or thought process
- Excessive drowsiness, extreme unexplained fatigue or significant lapses in concentration
- Flushed skin

- Other signs of intoxication or impairment or unusual and unexplained behavior of the individual employee

An employee who is identified by two or more trained RD 784 staff as potentially impaired may be asked to submit to reasonable suspicion testing. The employee will first be asked if they can explain their objectively observed behavior. If the employee is unable to explain the behavior, he or she will be requested to take a drug and/or alcohol test in accordance with the procedures described herein. If the employee refuses to cooperate with the administration of the drug and/or alcohol test, the refusal will be handled in the same manner as a positive test result, which results in discipline, up to and including termination.

### **Procedures for Drug Testing**

If the employee is determined by verifiable and confirmed reasonable suspicion observation as unable to operate a motor vehicle or other equipment or impaired for driving, then a District supervisor or General Manager will transport the individual to a medical facility for immediate testing or treatment. The District's occupational health provider would be the first option and if the incident is outside of normal business hours, a traveling drug testing service may be utilized. The District will pay the cost of the test.

The employee will have the opportunity to alert the clinic or laboratory personnel to any prescription or nonprescription drugs that he or she has taken that may affect the outcome of the test. The clinic or laboratory will handle the required testing. The District will have no control over the clinic or laboratory's testing methods. The clinic or laboratory will inform the District as to whether or not the applicant passed or failed the drug test. If an employee fails the test, he or she will be considered to be in violation of these Guidelines and will be subject to discipline, up to and including termination.

**Acknowledgment and Consent.** Any employee subject to testing under this policy will be directed to sign a form acknowledging the procedures governing testing and authorizing (1) the collection of a urine and breath sample for the purpose of determining the presence of alcohol and/or drugs, and (2) the release to the District of medical information regarding the test results. An employee who, for verifiable medical reasons is unable to produce a urine sample, may request an accommodation and may be subject to an alternative testing procedure, including a hair sample.

Refusal to sign the authorization form or to submit to the drug and/or test, will result will be considered the same as a positive test leading to discipline. All alcohol and drug testing records will be treated as confidential.

## **Return to Duty**

All employees who previously tested positive for a controlled substance or alcohol test must test negative the day before returning to duty.

Any employee who questions the result of a required controlled substance test may request that an additional test be conducted. This additional test may be conducted at the same laboratory or at a different certified laboratory. The test must be conducted on the split sample that was provided at the same time as the original sample. All costs for such testing are to be paid by the employee unless the second test invalidated the original test. The method of collecting, storing, and testing the split sample will be consistent with the procedures set forth in the DOT guidelines. The employee's request for a retest must be made to human resources within 72 hours of notice of the initial test result. Requests after 72 hours will only be accepted if the delay was due to documentable facts that were beyond the control of the employee.

**Records Retention.** The District shall maintain complete records of alcohol and/or controlled substance test results for each employee in a secure location with controlled access. Employee records are confidential and will be available to any state or local officials with regulatory authority over the District or any of its Class B drivers only. Records will be kept for a minimum of five (5) years regarding the following: driver alcohol tests; positive controlled substance tests; documentation on refusals to take alcohol or controlled substance tests; and, employee evaluations and referral.

# Reclamation District 784 Work Place Drug and Alcohol Policy

March 5, 2024

## 1. Introduction

It is the intent of the Reclamation District #784 to operate in an environment free of drugs and alcohol. We believe the use of drugs, alcohol, or being under the influence of intoxicating substances at work, jeopardizes the welfare and safety of our employees and visitors, as well as our productivity and efficiency. Your compliance with the following provisions of our Workplace Drug and Alcohol is a condition of employment.

## 2. Pre-Employment Screening

The District has adopted a pre-employment screening and testing practice for all applicants considered for employment. These practices are designed to avoid the hiring of individuals whose use of drugs or alcohol indicates a potential for impaired or unsafe job performance.

## 3. Use, Sale, or Possession of Drugs or Alcohol

### a. Illegal Drugs or Alcohol

The manufacture, possession, distribution, or purchase of an illegal drug or of alcohol by any employee or being under the influence of an illegal drug or alcohol, while in a District facility or while performing District business is prohibited. "Under the influence of alcohol is defined as any measurable amount of alcohol present in an employee. "Under the influence" of drugs is defined as any measurable amount of drugs present in the system, with the exception of non-psychoactive metabolites of marijuana/cannabis. This will prohibit, for example, drinking any alcoholic beverage while at lunch or on break, as well as reporting for work under the influence of alcohol or drugs. The only exception to this provision will apply to moderate consumption or possession of alcohol at District-approved functions or, for those that travel to off-site job locations, during after-work hours.

### b. Legal Drugs (Prescription and Over-the-Counter)

Using or being under the influence of any legally obtained prescribed medication or drug while performing District business or while in a District facility or at a District jobsite is prohibited to the extent that such use or influence affects job safety or efficiency. Employees in positions affecting public safety or the safety of other employees who will be using legal drugs should immediately inform their supervisor and/or General Manager. The District may consult with the prescribing physician to identify the expected effect of the drug or require a written statement from the physician that continued work will be safe and efficient. Marijuana/cannabis products are prohibited in the workplace and employees are prohibited from being actually impaired at work after ingesting, inhaling, or absorbing through the skin any cannabis/marijuana products, including medically prescribed marijuana. If the District

has reasonable suspicion that an employee is actually impaired at work, the employee may be sent home or subject to other procedures for which the presence of actual impairment may be identified.

An employee may continue to work if the District determines that the employee does not pose a safety threat and that job performance is not intoxicated, impaired, or adversely affected by use of the drug, whether onsite or shortly prior to reporting to work. Otherwise, the employee may be required to take a leave of absence or comply with other appropriate measures.

**c. Knowledge of Use by Others**

It is the responsibility of all employees to ensure that the work environment is safe and free of alcohol and drugs, to assure that all RD 784 worksites, facilities, and activities are in compliance with this Drug Free Workplace policy. Any employee who has knowledge of the violation of this Policy by another employee and does not report it will also be subject to disciplinary action, up to and including termination.

**4. Searches**

The District may conduct unannounced searches of District facilities, property, and jobsites for illegal drugs or alcohol. Employees are expected to cooperate in the conduct of such searches.

Searches of employees and their personal property may be conducted where there is a reasonable suspicion that an employee is in violation of this Policy. An employee's refusal to consent may result in disciplinary action, including termination, although the employee will first have the opportunity to contest the basis for the "reasonable suspicion".

**5. Testing for Drugs or Alcohol**

**a. Employees in Safety Sensitive Positions**

Any employee in a safety sensitive position is subject to random blood tests, urinalysis, or other drug or alcohol tests. "Safety sensitive" shall mean those positions which as a normal course of business require the employee to operate District vehicles or heavy equipment, power equipment, or those positions in which the employee's performance, reflexes, and/or judgement impact the safety of others. All management and construction and maintenance work shall be deemed "safety sensitive". These tests will be conducted by a professional medical staff and laboratory at the District's expense. Any employee who tests positive may be subject to immediate termination. The District will assure that all drug panels and screens for drugs are in compliance with federal and California law. Employees governed by DOT regulations will be tested for all substances under the Controlled Substances Act, including cannabis/marijuana. Employees who are not commercial drivers under the federal DOT

regulations but are in safety-sensitive positions, will be subject to testing for all drugs and substances other than the presence of non-psychoactive metabolites that do not reveal actual impairment at the time the test is administered.

**b. Individualized Testing – Reasonable Suspicion of Intoxication or Impairment**

The District may order an employee suspected of being under the influence of drugs or alcohol to take a blood test or urinalysis or other drug or alcohol test, conducted by a professional medical staff and laboratory. The testing will be conducted, without cost to the employee, during working hours. Transportation will be provided to and from the medical facility. After the test, the employee will be placed on an immediate suspension from work until the results are obtained. If the employee tests positive, the employee will be subject to immediate termination.

Reasonable suspicion is based on a legal standard of proof that allows an employer to test an employee for the presence of drugs or alcohol. It is based on specific facts and rational influences.

Examples of behavior that may result in a finding of reasonable suspicion include, but are not limited to the following:

- Odor of alcohol on their breath, clothing, or body;
- Impaired gait: staggering, stumbling, sustained unsteadiness when standing/walking or unusual body movements
- Slurred or unusual speech
- Bloodshot/red/squinting, dilated or constricted pupils or unusual eye appearance
- Unusual/inappropriate verbal or physical behavior
- Unusual/delayed communications or thought process
- Excessive drowsiness, extreme unexplained fatigue or significant lapses in concentration
- Flushed skin
- Other signs of intoxication or impairment or unusual and unexplained behavior of the individual employee

An employee who is identified by two or more trained RD 784 staff as potentially impaired may be asked to submit to reasonable suspicion testing. The employee will first be asked if they can explain their objectively observed behavior. If the employee is unable to explain the behavior, he or she will be requested to take a drug and/or alcohol test in accordance with the procedures described herein.

**c. Refusal to Submit to Testing**

Failure of any employee to consent to testing when requested to do so will be considered insubordination. If the employee refuses to cooperate with the administration of the drug

and/or alcohol test, the refusal will be handled in the same manner as a positive test result, which results in discipline, up to and including termination.

#### **6. Disciplinary Action**

Violation of any part of this Policy will result in disciplinary action, up to and including termination, even for a first offense, and, if appropriate, referral for prosecution by local, state, or federal law enforcement agencies. An employee convicted of violating a criminal drug statute for a violation that occurred on District premises or during working hours must notify the General Manager within 5 days of the conviction.

#### **7. Employee Responsibility to Seek Assistance**

It is the responsibility of the employee to seek help before alcohol or drug problems lead to violations of this policy and disciplinary action. The employee's decision to seek prior assistance with a drug or alcohol problem will not be used as a basis for discipline. However, seeking help will not be a defense to imposition of discipline if facts indicating a violation of this Policy exist separate from the employee's efforts to seek assistance.

CONSENT TO DRUG AND ALCOHOL TEST

I consent to allow \_\_\_\_\_ to collect urine and blood specimens from me for testing alcohol, drugs, and controlled substances that are governed by this policy. I also give my consent for the release of test results to appropriate management employees of RD 784. I understand that if I decline to sign this consent and decline to take the test, my application for employment may be rejected or my employment with the District may be terminated.

**BEFORE THE BOARD OF TRUSTEES  
OF RECLAMATION DISTRICT 784  
Resolution No. 2024 – 04 - 02**

**Resolution of Acceptance of Approximately (0.88) Acres**

WHEREAS, Reclamation District 784 (the “District”) is a California reclamation district organized and existing pursuant to Water Code Sections 50000 et seq.; and,

WHEREAS, Water Code Section 50930 authorizes the District to acquire, by purchase, condemnation, gift, lease or other legal means, such real or personal property as is needed for the purposes of the District; and,

WHEREAS, Government Code Section 27281 requires that public agencies accepting an interest in real property consent to the conveyance by executing a certificate or resolution of acceptance.

NOW, THEREFORE, BE IT RESOLVED AND ORDERED by the Board of Trustees of Reclamation District 784 as follows:

1. The Board authorizes its President, Sarbdeep Atwal, to execute any and all agreements necessary to accept an easement over approximately (0.88) acres of land from Jared Haste and Desiree Haste, Trustees of the J&D Haste Revocable Trust U/T/D December 22, 2015 within Yuba County, also known as a portion of Lot 1 in Block 19, and a portion of Lot 4 in Block 20 of the “Plat of Arboga Colony” filed in Book 1 of Maps at Page 31, Yuba County Official Records, as described in the attached.
2. The Board certifies that the easement conveyed by Jared Haste and Desiree Haste, Trustees of the J&D Haste Revocable Trust U/T/D December 22, 2015, to Reclamation District 784, a public agency of the State of California, is hereby accepted by the order of the Board of Trustees of Reclamation District 784 and the grantee hereby consents to the recordation thereof by its duly authorized officer.

The Honorable Alex Padilla

Dear Senator Padilla:

On behalf of Reclamation District 784, we express our support for ongoing work by the U.S. Army Corps of Engineers (USACE) to update the Water Control Manuals (WCMs) for New Bullards Bar Dam (owned and operated by Yuba Water Agency) and Oroville Dam (owned and operated by the California Department of Water Resources) and for the inclusion of funds in any final Fiscal Year 2025 Energy & Water appropriations bill for this purpose.

We are grateful for the collaborative efforts of Yuba Water Agency, the California Department of Water Resources and USACE to update the current WCMs for the dams, which have not been revised since they were originally published in the early 1970s. This ongoing work will advance the safe and efficient operations of the dams by updating the WCMs to both accurately reflect current hydrology and incorporate opportunities to improve operations to reduce flood risk and provide other important benefits.

Updating the WCMs will enhance the safety and reliability of the dams by improving water management and safeguarding the downstream communities with better flood control measures. We support Yuba Water's goals to update the WCMs to maximize the benefits of the planned Atmospheric River Control (ARC) Spillway at New Bullards Bar Dam, which will enable implementation Forecast-Informed Reservoir Operations (FIRO) on the combined Yuba-Feather River system and can significantly reduce flood risk for downstream communities.

We appreciate your attention to ensuring that these critical components of California's water infrastructure can continue to meet the needs of communities in the region. We are pleased to support Yuba Water Agency's efforts to secure Congressionally Directed Spending for the updates for the New Bullards Bar and Oroville Dams Water Control Manuals updates.

Sincerely,

***Items for Discussion and Possible Actions:***

***7. Board to Consider Renewing a Land Lease Between RD784 and the Linda Fire Department –***

The District has been leasing 1.05 acres of land next to the District office to the Linda Fire Department since 1983. Once renewed, the term will be for 10 years with an additional optional automatic renewal of one 5-year period. The annual lease fee from 2012 – 2022 was \$225.00. The new lease includes a fee increase to \$275.00. The actual building and fixtures are owned by the fire department. Brent Hastey moved to approve renewing the land lease with an increase from \$225.00 to \$275.00 annually. Jared Hastey seconded the motion. Motion Carried. **Vote: 5 Ayes (Atwal, Read, Danna, J. Hastey, and B. Hastey), 0 Nays, 0 Absent, and 0 Abstain.**

***8. Board to Consider Authorizing the General manager to Apply for a Cost Share Grant to Pull, Inspect, and Rehabilitate Pumps at Pump Station 7 and 9 –***

Pump Stations 7 and 9 are both approximately 50 years old. Each pump station has two pumps with motors. Although all pumps currently function, staff recommended after flood season having a contractor pull, inspect, and rebuild, all pump shafts, impellers, and motors. The estimated cost for both pump stations is \$150,000. Staff recommended submitting a grant request for \$135,000 with a \$15,000 (10%) cost share provided by the District. Jared Hastey moved to approve submitting a grant request for \$135,000.00 with a \$15,000.00 (10%) cost share provided by the District. David Read seconded the motion. Motion Carried. **Vote: 5 Ayes (Atwal, Read, Danna, J. Hastey, and B. Hastey), 0 Nays, 0 Absent, and 0 Abstain.**

***9. Board to Receive Information About the CITRIS and Yuba Water Flood Risk Reduction Research Project –***

CITRIS (Center for Information Technology Research in the Interest of Society), is a 2-year research project that YWA in partnership with UC Berkely and other campuses is launching to look at new ways of monitoring levees throughout Yuba County by using sensing technologies to monitor ground movements. In recent years, advances in various forms of modern technology has attracted new methodologies for infrastructure monitoring. At the request of YWA, staff and MHM provided 3 locations to be part of the program which will include Lidar flights with other remote sensing data such as infrared readings to monitor for subsidence, slipping, and/or erosion along the levees. The locations provided by the District include the Bear River setback levee, the southern end of unit 4 (WPIC), and the southern end of unit 2B. The project will be at no cost to the District.

**10. Public Employee Evaluation and Consider Compensation Increase – General Manager –**

The General Manager's 4-year anniversary was on January 1, 2024. The GM requested the Board to evaluate performance and consider a salary survey also presented. Joe Danna moved to approve a 15% increase in the General Manager's salary. The General Manager's salary was raised to \$151,800.00 effective 3/5/2024. David Read seconded the motion. Motion Carried. **Vote: 5 Ayes (Atwal, Read, Danna, J. Hastey, and B. Hastey), 0 Nays, 0 Absent, and 0 Abstain.**

**11. Board to Receive the Monthly Budget Snapshot –**

The Board received the monthly budget snapshot through February 29, 2024.
